

Heavy-Duty Mechanic – Job Description

Title

Heavy-Duty Mechanic

Wage Range: \$32 to \$36 per hour depending on experience

Reports To

Facility Manager

Work Site

Envirogreen Technologies Ltd. Contaminated Waste Treatment Facility is located approximately 20 KM Southwest of Princeton, B.C. V0X 1W0.

Summary

Envirogreen Technologies Ltd. (ETL) is an established waste management company, leading the way in the treatment of hazardous and non-hazardous wastes. Our permitted hazardous waste treatment facility, located outside of Princeton, BC, utilizes thermal desorption technology to treat a wide range of industrial waste and contaminated soil.

ETL is looking for a motivated Heavy-Duty Mechanic with proven experience to join our team. The Heavy-Duty Mechanic works under the direction of the Facility Manager and any assigned Supervisors and works with other employees within the company to ensure safe work practices and policies, compliances and regulations are adhered.

Main responsibilities will include; perform a full range of maintenance, repair, and service activities on heavy equipment and other mobile equipment. Make decisions related to troubleshooting and parts replacement.

The Heavy-Duty Mechanic will work closely with facility staff to create a positive and safe working environment, be a resource to management and facility staff for health and safety information and promote health and safety programs in the workplace.
