Location: Medicine Hat, Alberta

- **Bring your leadership experience to a rewarding role!**
- **Put your expertise to work in a dynamic role within a collaborative team environment!**
- **Receive competitive compensation and benefits with a global leader!**

ABOUT THE ORGANIZATION

Methanex is the world's largest supplier of methanol to major international markets in North America, Asia-Pacific, Europe and Latin America. Methanol can be found in products from windshield washer fluid to recyclable plastic bottles, plywood floors to paint, silicone sealants to synthetic fibers. The energy sector is one of the most rapidly growing markets for the use of Methanol and greatly relies on the expertise and commitment of Methanex as their trusted supplier.

With the care of the environment as the root of their business, Methanex is a Responsible Care® company committed to the safe, ethical and environmentally sound management of the chemicals it makes and uses. Responsible Care® is an ethic established by the Chemical Industry Association of Canada (CIAC). The Responsible Care® ethic is an integral part of Methanex's global commitment to ensuring the well-being of all stakeholders, wherever Methanex does business.

ABOUT THE OPPORTUNITY

Methanex is currently seeking a **Rotating Equipment Supervisor** to join their team in **Medicine Hat, AB** on a full-time basis.

As the Rotating Equipment Supervisor, you will be responsible for ensuring that the plant operating systems are maintained safely and efficiently, fostering a strong safety-based attitude in everyday activities, and working within outlined budgets. You will also be responsible for ensuring that direct reports are trained and competent.

More specifically your responsibilities in this role will include:

- Coordinating prompt, safe, and quality repairs to process equipment through accurate scheduling and time management.
- Continually assessing methods to improve site performance such as cost-saving, site safety, and plant reliability.
- Ensuring that Work Safety Controls System and site policies and procedures are followed and maintained.

- Managing, inputting, and investigating Incident Management System (IMS) incidents.
- Leading the department during turnarounds and outages.
- Actively participating in developing, forecasting, maintaining, and working within the maintenance operating budget.
- Ensuring compliance with all Pressure Equipment Management (PEIM) responsibilities as per the PEIM manual.
- Directly supervising workers to ensure work is completed safely and to a high level of quality while also meeting scheduling demands.
- Participating in the recruitment and selection of new employees within the Rotating Equipment team and Maintenance team.
- Initiating direct reports yearly performance reviews and sets goals for the outlined year.

In order to qualify for this role, you will have **at least 5 years of relevant industry leadership experience** along with a **journeyman millwright trade certification**, individuals that are qualified in a related field with relevant experience may also be considered. You will also need a **valid driver's license** and **at least 5 years of plant maintenance experience**.

As our ideal candidate, you will also have knowledge of maintenance techniques such as laser alignment, vibration analysis, and oil analysis as well as previous experience with a computerized maintenance management system (CMMS). You will also need strong knowledge of steam turbines, centrifugal compressors, pumps, and various other types of rotating equipment.

You'll join us with excellent trade knowledge and proven mechanical aptitude. Your strong interpersonal, collaboration and leadership skills will combine with your customer-focused mentality to ensure that you continuously meet the needs of internal and external customers. You will also need to have a history of managerial courage characterized by the ability to identify and address issues quickly and directly as well as provide specific, actionable, and constructive feedback to others.

This role is well suited to someone who is organized, detail-oriented, and capable of resolving issues independently within a dynamic environment. Your planning skills and time management skills will be bolstered by your ability to accurately assess the length and difficulty of tasks and projects. Of course, you will also join Methanex with a flexible mindset and the ability to manage ambiguity while prioritizing competing tasks.

Finally, you will be improvement focused with a demonstrated history of developing a team in order to achieve your goals.

If you have the drive, determination, and ambition to meet and exceed expectations, then we invite you to apply today!
