

Senior Collaboration Repair Technician

SGI is looking for a permanent, full-time Senior Collision Repair Technician in Regina. The Senior Collision Repair Technician (SCRT) provides technical advice and guidance and monitors and reviews the work of the Auto Body Repair Apprentices. In this role, you'll be responsible for training the apprentices in technical and non-technical aspects of the role. You will also be performing auto body repair work on damaged vehicles using specialized auto body hand tools, power tools, and other related shop equipment to ensure the vehicle's return to a safe and operable condition.

We are looking for candidates with the following:

- A motor vehicle body repairer Red Seal journey person certificate.
- Possession of a valid driver's licence.
- I-Car Platinum Steel Structural Technician and I-Car Aluminum Repair Technician course.
- 6 - 8 years' directly related industry experience, including experience training apprentices.

If that sounds perfect to you, we'd love to have you join our team!

Why SGI?

Because SGI is a great place to work. We value integrity, passion, caring and innovation. We have an intentional culture that promotes trust and participation in a way that encourages employees to bring their hearts and minds to their work. Part of the SGI experience that our employees value most lies within the community comprised of their coworkers. The employee community isn't the only reason our people stay at SGI; we also offer a wide range of benefits and invest in career development to meet the needs of our employees. We embrace diversity, recognizing and celebrating our differences and our similarities. Our careers are as diverse as our employees.
