Objective:

Maintenance technician looking to obtain a challenging full time position with a stable forward moving company as a maintenance personnel on Vancouver Island.

Professional Qualifications/Key Skills:

Current position is a hands-on maintenance manager of a major North American Fruit Processing company. Duties include looking after all day-to-day aspects of plant machinery, building maintenance, contractors and training/ supervising all maintenance staff. Have been required to travel over the past 10 years to the other five plants in other parts of the country to help with maintenance, training and installation of machinery acquired by company to improve production output. Qualifications include 15 years of hands-on mechanical experience and 3rd year HVAC apprentice.

- I have acquired an excellent set of inter-disciplinary skills related to the manufacturing and shop environment.**
- Very self motivated; think outside the box to acquire the most efficient way to obtain maximum output of all equipment.**
- Knowledge of all power and hand tools**
- Knowledge of HVAC and cooling systems**
- Knowledge of electrical controls, circuits and VFD's**
- Welding skills include tig and stick**
- Preventative maintenance of all motors, conveyors, bearings, gear reduction units and pneumatic systems.**
- Built preventative maintenance systems and LOTO for all machinery in all plants.**
- Have been certified with International Training Association with sign-off authority for Millwright apprentice program.**
- Forklift and scissor lift trained**
- Can supply all hand, power tools and welders if necessary**
