To Whom It May Concern:

Thank you for the opportunity to apply for a position with your company. After reviewing the job description, it's clear that you are looking for a candidate that is extremely familiar with the responsibilities associated with the role and can perform them confidently. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I am a hard-working professional who has been consistently praised as proactive by my co-workers and management. Over the course of my career, I've developed a skill set directly relevant to the Millwright role you are hiring for, including equipment maintenance and safety compliance. Overall, I have consistently demonstrated creative thinking, multitasking and problem-solving abilities in every aspect of my Millwright role and I invite you to review my detailed achievements in the attached resume.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization. Please contact me at (780) 831-6860 or via email at gerardm586@gmail.com to arrange for a convenient meeting time.

Thank you for your consideration and I look forward to hearing from you soon.

Sincerely,

Gerard Martin
Red Seal Millwright

Reference Letter for Jerry Martin 7/12/2018

To whom it may concern;

I have had the opportunity to work with Jerry in several capacities. I was a saw filer when Jerry first came to Weyerhaeuser close to 20 years ago and Jerry started in the recovery department of the Saw mill running Stacker's to board Edger's and everything in between. Jerry was a very good operator that was very Safety conscious about himself and others on his team. Jerry took a training role after several months and was a real leader for others on the mill floor considered as one of the best operators in the mill. Jerry is a very effective communicator and got along well with everyone in the mill from teammates to Supervisors and Trades groups.

Jerry eventually worked his way onto the Sawmill maintenance crew with his Safety behavior and tremendous trouble shooting skills as an operator. I at that time was one of the mill Production Supervisors. Jerry was quick to answer any call from the operations floor and was excellent at bringing attention to operations the importance of learning your equipment from a mechanical stand point as well as getting numbers and was an excellent resource for all. He really took the time to explain when we had down time what the issue was and what he was doing to fix it.

Jerry and I again worked together in the Planer mill when Jerry came over to join the maintenance group. Jerry again was quick to learn the Planer side of the business and again was a trainer and leader of his team. Jerry has excellent skills in his trade and was a very hard worker.

I would work with and recommend Jerry for any position he is applying for.

Stacey Coomber

Sawmill Supervisor

Tolko Industries
