Red Seal Heavy Duty Equipment Technician / Y4 Certified Marine Engineer

Mega Yacht Marine Engineer looking to establish a challenging position I can utilize my professional experiences and skills, while making a significant contribution to the success of my employer.

PROFESSIONAL EXPERIENCE

GREAT CANADIAN FENCE AND DECK, Vancouver, BC April 2018 – Present

Carpenter Foreman

Providing property owners with their dream back yards. Decks, enclosures, pool houses, outdoor kitchens, Jacuzzi installations and more. Manage worksite with a crew of 4-5, coordinate tasks, material orders, and ensure complete customer satisfaction on every job.

VANCOUVER SHIPYARDS, Vancouver, BC Oct. 2015 – Nov. 2017

Service Trades Foreman

Coordinated manpower and tasks to be performed in the shipyard. Both new construction and repairs. Oversaw production and completion of tasks. Managed Union personnel with an excellent safety record, crew of 100+.

AMIX MARINE SERVICES, New Westminster, BC Feb. 2014 – Sept. 2015

Fleet Maintenance Manager

Managed, coordinated, oversaw, and performed ongoing maintenance on Amix Tug Fleet, ensuring vessels are safe and in sea worthy condition. Provided support when emergency repairs arose.

MOTOR YACHT "LADY SHERIDAN"-190' ABEKING, US/Europe/Caribbean Oct. 2011 – Dec. 2013

Second Engineer

Second Engineer on busy Charter Yacht. Completed busy yard periods with many large mechanical projects. Two round trip crossings to Europe with busy charter season. Maintained a safe running engine room and repaired all vessel components.

YACHT MARINE ENGINEER TRAINING, South Florida Nov. 2010 – Sept. 2011

Schooling and Safety Training for Mariners

Completed all necessary training required for sailing on some of the worlds largest Mega Yachts. All Emergency Safety, First Aid and Fire Fighting at Sea also completed. Spent many months at sea with various vessels to attain required hours to complete certification.

MOTOR YACHT "ATTESSA IV" - 340' NAGASAKI, Vancouver, BC June 2008 – Nov 2010

Mechanical Leadhand

Mechanical Leadhand for Refit project. Responsible for a crew of 8 men and all major tasks during refit. Customized much of the vessel, while repairing and maintaining the rest of the ship for crew were living onboard.

PETROWEST PETROLEUM, Peace River Area, AB Aug. 2004 – Mar. 2008

Service Mechanic

Service Mechanic for 70+ pieces of Earth Moving Equipment – Graders, Bull Dozers, Excavators, On and Off Highway Trucks, etc. Ran Service Truck, Maintaining, Repairing and Servicing Machinery all over Northern Eastern Alberta.

VANCOUVER SHIPYARDS, Vancouver, BC Oct 2001 – June 2004

Apprenticeship

Apprenticeship training and completion in Feb. 2004. Many different projects including major refits, maintenance, repairs, improvements and servicing of all types of vessels: Fishing boats, tugs, yachts, ferries, cargo and tanker ships, rail carriers, coastguard and military ships
