CAREER OVERVIEW

Recently graduated student seeking a full time position, with the ability to apply a combination of academic knowledge and practical experience within the automotive and customization field. Progressively building knowledge of the appropriate field while applying natural communication, leadership, time management and organizational skills.

EDUCATIONAL BACKGROUND

GEORGE BROWN COLLEGE – 2017
INDUSTRIAL WELDING CERTIFICATION
Specialized in MIG and STICK Welding

HIGHLIGHTS OF QUALIFICATIONS

- The physical abilities necessary to complete any manual job; lifting, bending and twisting while simultaneously holding a torch steady for long periods of time.
- Graduated top of my class with a 89% average.
- Incredible math skills; calculate the dimensions to be welded, read blueprints, and interpret sketches.
- Meticulously clean and attention to detail; clearing all welding pieces from grease or corrosion from parts and chip out holes, bubbles, and cracks prior to welding.
- Experience documenting my work with good organizational skills, and the ability to conduct inventory of supplies and order them.
- Ability to work alone, and work effectively with a team.
- Remarkable verbal and written communication skills in English, French and Arabic.
- Extraordinary Learning abilities; always eager to learn new technologies, techniques and how to operate new and improved welding equipment.

PROFESSIONAL EXPERIENCE

TOO FAST MOTORS

AUTOMOTIVE TECHNICIAN

NORTH YORK 2014- OCTOBER 2018

- Keeps equipment available for use by inspecting and testing vehicles; completing preventive maintenance such as, engine tune-ups, oil changes, tire rotation and changes, wheel balancing, and replacing filters.
- Welding, installing and modifying exhausts and other custom items to meet the clients personal preference.
- Maintains vehicle functional condition by listening to operator complaints; conducting inspections; repairing engine failures; repairing mechanical and electrical systems malfunctions; replacing parts and components; repairing body damage.
- Verifies vehicle serviceability by conducting test drives; adjusting controls and systems.
- Keeps shop equipment operating by following operating instructions; troubleshooting breakdowns; maintaining supplies; performing preventive maintenance; calling for repairs.
- Updates job knowledge by seeking out educational opportunities; reading technical publications.
- Accomplishes maintenance and organization mission by completing related results as needed.

BRIMELL TOYOTA

AUTOMOTIVE APPRENTICE

SCARBOROUGH 2012-2014

- Perform standard vehicle repairs on their own, tasks such as changing brake pads and rotors, replacing vehicle fluids, and replacing car batteries.
- Use company-created automobile checklists to determine which repairs are needed on vehicles scheduled to be serviced.
- Repair vehicles through formal training sessions and hands-on work tasks supervised by auto mechanics.
- Create written labor, time, and parts cost estimates for needed vehicle repairs.
- Test all vehicles before and after the repair procedure.
- Disconnect batteries inside vehicles and hook them up to an in-shop testing device to determine their functionality.
- Performing light custodial tasks to keep workshop and customer areas clean and presentable. Keep inventory areas clean and well-organized.

- Take apart car and truck engines, as well as other parts of the vehicle, such as sidewall panels and floorboards.

GOODYEAR TIRE & AUTO CENTRE

TIRE AND LUBE TECHNICIAN APPRENTICE

NEWMARKET 2010-2012

- Provided supervised preventative maintenance on domestic and imported vehicles whilst offering a solid customer service experience.
- Completed thorough vehicle inspections to assess and ensure all work was completed to standard.
- Performed lubrications and oil changes unsupervised.
- Conducted tire, brake and minor repairs with the help of my supervisors.
- Created invoices for the customer relations department regarding payment.
- Maintained a track record of all work conducted on vehicles monthly for management.

SKILLS

While employed at different companies in this industry I have gained a wide range of skills. I am meticulous with my work, and I am extremely eager to learn additional expertise that I have not yet obtained from my previous professional experiences. The following is a list of various abilities I have obtained from my past employments:

- Customer service; frequently speak with customers to learn the nature of their vehicle problems, explain repair processes, and collect payment for completed repairs.
- Physical ability; physically able to complete tasks; stoop, crawl, work laying down, and lift heavy pieces of vehicle machinery.
- Mechanical skills; a strong understanding of mechanics and engines in order to complete their daily duties and learn how to successfully repair all types of vehicle problems while simultaneously managing other projects.
- Communication; the ability to listen and absorb information, as well as the ability to relate information clearly to others.
- Administrative; track all work completed and hours clocked.
- Analytical abilities; dozens of different things can go wrong on any vehicle; ability to isolate the problems.
