

# **Ian Murphy**

## **Millwright / CWB Welder / Foreman**

Spruce Grove, AB T7X1J3  
millwrightmurphy@live.ca - 7809746071

I have worked from coast to coast doing shutdown and construction work for 30+ years on literally all types of rotating equipment with the majority doing both gas and steam turbines. While in Alberta I have had the opportunity to work on some of the biggest construction jobs in North America such as North West Refinery ( NWR ), Shell Scottford Upgrader, unit 3 turbines at both Genesee and Keephills.

I'm a very versatile tradesman who takes pride in workmanship, safety conscious and believe a happy work environment fosters happy employees.

### **WORK EXPERIENCE**

#### **Millwright / welder**

Millwrights Union LU 1460 - Edmonton, AB -

July 2001 to July 2018

I have worked all over western Canada working turbine shutdowns, construction on many major jobs ( NWR ) ( Shell Scottford ) . Lately I have been foreman and general foreman at Transalta (Keephills and Sundance) and at Capital Power ( Genesee ) on major shutdowns and pit stop maintenance outages executing all jobs on time and on budget with no lost time injuries. I have 30+ years of shutdown and construction experience .

#### **Millwright/ welder**
