PERSONAL STATEMENT

I am a class 1 journey man, apprenticeship trained. I hold a national diploma in mechanical engineering and a national certificate in millwright work.

WORK HISTORY

Sandvik

Harare, Zimbabwe
May 2016 - Present

● Maintenance Fitter

I work on dump trucks, Loaders, bolters and drill rigs. My work involves

- Pre-shift checking machines : checking for structural damage, drive lines, tyre pressure and wheel studs, bearings, pins, hydraulic hoses, lubrication, brake testing, safety devices auditing, oil levels, belts, transmission, axles
 - Planned maintenance : carrying out maintenance as per work order, checking for any possible defects not highlighted in the work order.
 - Breakdown maintenance : attending to all breakdowns timeously to reduce down time, troubleshooting, root cause analysis.
 - Reporting : completing work orders and submitting to planning office, completing end of shift reports for the incoming shift.
 - Safety, Health, Environment, Quality : attending all pre-shift S.H.E meetings, Hazard identification and reporting, safety citizenship and leadership, good house keeping.
-
