## Experience summary

---

Mechanical technician; I have a total of 8 years of full-time work experience in a big construction project with more than 7 contractors and 27 sub-contractors, the development concept consists of a field gathering system, Central Processing Facility (CPF), infrastructure, and export pipelines for sales gas, LPG, condensate and oil, for SONATRACH/ENI as a mechanical tech/Mechanical commissioning supervisor and now after the startup phase as a mechanical technician for the same company. In my present position my responsibilities are keeping all mechanical machinery (all rotary machinery) working well and making daily inspections inside the CPF, wells and manifolds.

## Detailed experience during pre-commissioning & commissioning activities

---

Pre-commissioning:

1. Hydrotest of Pipelines
2. Leakage Test of Pipelines
3. Flushing & Cleaning of Pipelines (with water) and dry out by Air blowing
4. Preliminary checks
5. Piping conformity check & Manhole closure
6. Systematic Conformity Check of Equipment
7. Static Test of Equipment
8. Closure of blocking points of the punch lists

Commissioning:

1. Preliminary Check
2. Functional Check of all rotary machinery
3. Operational Test
4. Vendor assistances
5. Pre-Startup activities
