Dear Human Resources Department:

I wish to apply for a full-time position as a Fourth-year Heavy Duty Equipment Technician apprentice at your company.

Between March and June of 2013, I was employed by Black Diamond Mechanical LTD as a labourer where I gained experience working on heavy logging equipment in the field and in the shop. In November of 2014 I became employed by Capital Gear LTD in Edmonton Alberta until September 2018, here I have gained experience in the takedown and repair of transmissions and differentials. I have gained not only technical expertise but also a solid understanding of the business facing side of this industry, including project management, maintaining a safe and clean work environment, and working within small to large groups.

I am committed to contributing quality workmanship to your team and I am looking for an opportunity to grow and contribute to your organization. I am available for employment immediately and can be contacted at **250-240-6260** or via email at **tylerallanwilson@gmail.com**. I look forward to hearing from you soon.

Sincerely,

Tyler Wilson
