

**Shane Wetherill**  
**Red Seal Journeyman Instrument Technician**  
**(250)784-5484**  
[shanewetherill@hotmail.com](mailto:shanewetherill@hotmail.com)

**Certified Journeyman Instrument Tech with 5 years of experience within the oil and gas industry.**  
**Focused on quality, safety, efficiency and customer satisfaction.**

**SKILLS:**

|                           |               |                   |                        |
|---------------------------|---------------|-------------------|------------------------|
| *Preventative Maintenance | *Calibrations | *Trouble Shooting | *Commissioning         |
| *Working as a team        | *Organization | *Installations    | *Mechanically Inclined |

**PROFESSIONAL EXPERIENCE:**

**Control Tech Instrumentation & Electrical, Dawson Creek, B.C**

**Journeyman Instrument Tech, April 2017- Present.**

- Working as part of a team on Gas plant turn arounds, Calibrating pressure transmitters, Maintaining and rebuilding Instrument devices such as regulators and Valves.
- Assisting construction crews with the building of large multi well pads.
- Completing annual preventative maintenance of shutdown devices and pressure transmitters at all Encana well sites in the Dawson Creek and surrounding area working directly under their lead Instrument Techs.
- Completing regulatory annual calibrations on MVS's for gas measurement.
- Maintaining bi-fuel skids for drilling rigs to run on natural gas, Calibrating Nuflo scanners, calibrating and repairing hydraulic ESD systems, Rebuilding and setting regulators.

**Intricate Group, Sherwood Park, AB.**

**Apprentice Instrument Tech, January 2012- April 2015**

- Completing measurement projects, Calibrating MVS's and Dry flows, Liquid turbine proving, inspecting orifice plates, updating measurement schematics, collecting data and measuring piping for fuel flare vent documentation, testing well site shut down devices.
- Maintenance at gas plants and well sites, maintain gas and liquid measurement devices, gas detection and monitoring devices, pneumatic controllers, various valves, chemical pumps.
- Gas plant turn arounds, Testing and maintaining instrument devices, pressure transmitters, Fire and gas detection equipment, vibration sensors, level measurement devices.

**Safety Tickets & Licenses**

\* H2S Alive    \* Detection & Control of flammable substances    \* Fall Protection  
\* Aerial Work platform operators license    \* B.C Workplace Emergency first aid    \* Class 5 driver's license

**Education:**

- **South Peace Secondary School**, Dawson Creek, B.C  
High School Diploma – June 2007
- **Southern Alberta Institute of Technology**, Calgary, A.B  
First Year, Second Year, Third Year Instrumentation- 2014-2015
- **Northern Alberta Institute of Technology**, Edmonton, A.B  
Fourth Year Instrumentation & Red Seal Exam- July 2018
