Skills

- Team Player
- Microsoft Office
- SAP
- Leadership
- Monitoring and Evaluation
- Effective Communication
- Time Management
- Budgeting
- Conflict Resolution
- Highly Organised

Roy Sawulayi

To work in a globally competitive environment on challenging assignments that yield the twin benefits of job satisfaction and steady paced professional growth.

Experience

Konkola Copper Mines

February-2012
Currently

● Senior Heavy Duty Diesel Mechanics.

- Carrying out Equipment rehabilitation, rebuilding, maintenance, and repair of underground heavy duty equipment
- Reducing costs and achieving high production targets by increasing machine reliability and availability.
- Responsible for Machine auditing, stripping down, disassembling and, assembling of components
- Equipment rebuilds, remove & install Engine, power train and Hydraulic components (Major & Minor) and Overseeing Caterpillars, Atlas Copco and Sandvik machines (includes LHDs, Mine Trucks and Drill Riggs). And installation and maintenance of remote control systems on LHDs.

Konkola Underground Services

June-2010
December-2011

● Heavy Equipment Diesel Mechanics.

- Carrying out underground machine maintenance activities such as: troubleshooting, repair, remove & install minor and major components.
- Preventive Maintenance and daily machine inspection following safety procedure under Konkola copper mines safety procedures, with safety, health and environmental (SHE) are primary responsibility.
- Auxiliary responsible are Caterpillar, Atlas Copco and Sandvik machines (i.e. Loader, mine trucks and drill Riggs) to Support and achieving underground mining development and production targets.

Konkola Copper Mines (Nchanga Open Pit)

April-2009
June-2010

● Heavy Equipment Diesel Mechanic

- Removing and installing Engines, Power train and Hydraulic components.
- Carrying out Preventive Maintenance, daily maintenance and remove install components (Major & Minor) following safety procedure under KCM safety procedure, with safety, health and environmental (SHE).
- Auxiliary responsible are Wheel Loader 994F, Wheel Dozer 854G, Dozer D10T & D11R, Grader 24H & 24M.

Konkola Copper Mines Plc

April-2009
April-2010

● Heavy Equipment Mechanic Trainee

- Removing and installing Engines.
- Power train and Hydraulic components.
- Carrying out Preventive Maintenance.
- Daily maintenance and remove install components (Major & Minor) following safety procedures.
- Auxiliary responsibilities are Wheel Loader 994F, Wheel Dozer 854G, Dozer D10T & D11R, Grader 24H

& 24M.

Konkola Copper Mine plc
December-2008
March-2009

● **Heavy Mobile Equipment Operator (Mechanic)**

- Operating of LHDs to support in copper production and mining developments.
- Conducting daily pre-shift machine checks, before, during and after start checks and end of shift machine checks including cleaning and washing of equipment after use.
- Responsible for lashing, tramping and loading copper ore or waste into mine trucks and tips from development ends and achieving set production targets for the section following Konkola copper mine and product safety procedure of machine operation standards.
- Reporting of breakdowns, faults and machine defects to technicians.
- Overseeing underground machines including caterpillar (R1600G, R1600H and R1300), Sandvik (Tk 6, Tk7, Lh410, Lh 410m, Lh514) and Atlas Copco (ST2G, ST 710, ST 1020, ST1520).

R.S Transport
April-2006
June-2007

● **Truck Driver/ Mechanic**

- Responsible for timely transporting and delivering goods for stakeholders
- Daily maintenance and services.
- Delivering invoices to Accounts departments

Education

**Livingstone Institute Of
Business And Engineering
Studies**
2005

● **Craft Certificate**

- Craft Certificate of Automotive Mechanics

Mwinilun'ga high school
2002

● **GCSE Certificate**

- General Certificate of Secondary Education

Certificates & Courses

- Basic International Mining Safety
- Mining Advanced First Aid
- All Mining Operations.
- Blasting licence (includes; transportation of mining explosives, charging and Blasting)
- LHD & Mine truck operation
- Basic mechanics refresher course
- Engine System & Application.
- Basic Hydraulic & hydraulic systems.
- Computer literacy.
- Operator technical skills.
- Basic arc welding
- Basic slinging and rigging.
- Parts manual literacy.
- Project management
- Total quality Management.
- Sandvik technical modules and basic electro hydraulics.

- Occupational Health, Environmental and Safety Awareness.
- Level 1 and level 2 Bogger remote control installations, operations, testing and maintenance of remote control systems by Remote control technologies (RCT) Australia.

Basic air conditioning and refrigeration for Automotive and domestic air condition
