## PROFILE

---

**Senior Level E&I Professional** with a 20+ year track record of industrial Electrical & Instrumentation commissioning, inspection, maintenance and project lead / supervision. I am a motivated professional with multiple technical certifications, a talent for quickly mastering technology and company specific programs and processes. Diplomatic and tactful with professionals and non-professionals at all levels of an organization. Accustomed to handling sensitive, confidential records. Demonstrated history of producing accurate, timely results and meeting stringent technical, quality and HSE guidelines. Identified as flexible and versatile, with the ability to maintain a sense of humor under pressure. Skilled at supervision, coaching, training and mentoring, with a proven ability to easily transcend cultural differences.

## SKILLS SUMMARY

---

- |                                   |                                                        |                                      |
|-----------------------------------|--------------------------------------------------------|--------------------------------------|
| ▪ BC –FSR-A Certified Electrician | ▪ ITA –RTOBC Certified Industrial Electrician Assessor | ▪ Project Management                 |
| ▪ Alberta Master Electrician      | ▪ Electrical Eng. Technologist                         | ▪ Training-Mentoring                 |
| ▪ Red Seal Journeyman Electrician | ▪ Budget Development                                   | ▪ Procedure Development              |
| ▪ Staff Supervision               | ▪ Budget Management                                    | ▪ Maintenance- Operations Compliance |
| ▪ Scheduling / Planning           | ▪ Safety Processes                                     | ▪ Professional Presentations         |
| ▪ SAP User                        | ▪ Report Preparation                                   | ▪ Six Sigma and Insight Familiarity  |
| ▪ PID Interpretation              | ▪ Competency / Quality Assessment                      |                                      |

## PROFFESIONAL EXPERIENCE

---

### Communication:

- Prepared complex reports detailing daily-weekly-monthly operation, commissioning, troubleshooting progress-results, ensuring full compliance with company, operational, OEM and regulatory requirements and tight deadlines.
- Authored professional correspondence to internal / external stakeholders and vendors.
- Prepared detailed budgets and cost forecasts in industrial maintenance settings and for special projects.
- Provided basic to advanced E&I mentorship and training.
- Conducted on the job training classes with both national and expatriate personnel, with an emphasis on working safely around and with various E, I & C equipment.
- Communicated technical concepts to various other stakeholder groups using layman's terms to facilitate understanding.

### **Operations / Project Management:**

- Oversaw field plant equipment and staff in order to provide impeccable troubleshooting, commissioning and maintenance service:
- Develop and implement strategic new project development, inspection, maintenance, start-up, scheduling and budget plans for a variety of upstream Oil & Gas projects:
- Responsible for the development and implementation of commissioning / maintenance plans, budgets in excess of 18 million dollars on a variety of projects around the world.
- Coordinated external and internal resources to be used for successful operations, maintenance and flawless startups.
- Developed a spare parts inventory from PID's, operational requirements.
- Led/Assisted in the development of procedures and policies to help ensure the safe and efficient operation of new projects from initial construction and commissioning phase, through to the operation and maintenance phase of a variety of projects.
- Worked within E&I / operations department to provide technical support of all electrical / instrumentation equipment.
- Provided mentoring, competency assessment and on the job training for local / national technicians.
- Created, prepared and reviewed RFQ documents and played key role in decisions of quote acceptance.
- Used a variety of software such as SAP, IPES, Maximo, WinPCS, MS Project, Oracle etc for project controls.

### **Specialization:**

- Finances: budgeting. Planning and executing of said budgets / plans.
- Team building within designated group and other stakeholders
- Electrical Facility/Project commissioning/maintenance scheduling and troubleshooting.
- Detailed troubleshooting / operation reporting.
- Competent in a variety of software programs including MS Office, SAP, as well as Siemens, Rockwell VFD and Rockwell, Mod icon, GE PLC / DCS systems.
- Finances: budgeting. Planning and executing of said budgets / plans.
- Co-worker of and Supervision of a wide variety of multi-national, culturally diverse fellow employee base.
- Compliance with local and international labour-safety codes also including the CEC, NEC, IEC electrical codes along with company specific safety regulations, safe work practices, project management guidelines CMMS, HSE processes, and vendor requirements.

## EMPLOYMENT HISTORY

---

**Suncor Energy Jan. 2016 –June, 2018– E&I Supervisor** Fort McMurray, Alberta (Oilsands) – Upgradder Base Plant

- ❖ Lead E&I mainetenance team. Plan daily and future work on preventative maintenence and break down work. Assist engineering to increase reliability, track performance -KPI

**Catalyst Paper Corp. E&I Supervisor** 2013 -2014- Port, Alberni, British Columbia, Canada

- Provided leadership and in development of new E&I equipment upgrade & maintenance strategies and ARC Flash safety training

**Jacobs Engineering Ltd** 2012-2013 Edmonton, Alberta, Canada

- Assignment as Senior Electrical Design Specialist – review of new project CWP, design of E&I pumping stations for Enbridge Pipelines RFI reduction strategies

**CNRL - Horizon Oilsands Lead E&I Coordinator** 2011 – 2012 Fort McMurray, Alberta, Canada

- E&I maintenance plan and safe work procedure development, supervision of contractors

**Occidental Petroleum. (Oxy-Oman)** 2010 -2011 Muscat, Oman

- Consulted as Senior Electrical Specialist – supervise national and expiate E&I team in E&I maintenance, system upgrades and safety procedures.

October 2008 – June 2010, **Enbridge Pipelines Inc.** Edmonton, Alberta  
Senior Commissioning & Start-Up Coordinator

August 2006 – Sept. 2008, **ExxonMobil-Brunel Energy**, Chad, Africa  
Senior Electrical Advisor

August 2004 – March 2006, **Nexen Inc.** CNPE BK-51, Yemen  
Senior Electrical Field Technician

March, 1985 – July 2004

**Various Industrial Electrical Service Providers**, Vancouver, BC. / Edmonton, AB area

Apprenticeship, Journeyman Electrician / Field Service Technician

- extensive E&I maintenance work in various industries (Marine, O&G, Pulp & Paper)
- extensive HV, MV, LV construction, maintenance experience in variety of settings
- Sudan for Schlumberger as field service lead

## EDUCATION

---

**2007 – 2008**

**Mount Royal College – Calgary, Alberta-Canada**

**Project Management (PMBOK standard)**

Successfully Completed the Mount Royal College Project Management Certificate Program (PMBOK)

**1997 – 1998**

**BRITISH COLUMBIA INSTITUTE of TECHNOLOGY – Burnaby, B.C. - Canada**

**Electrical Engineering Technology (Advanced Industrial Controls)**

Electrical Engineering Technologist Certification

**1991 – 1997**

**BRITISH COLUMBIA INSTITUTE of TECHNOLOGY - Burnaby, BC**

Successfully completed all requirements of the electrical apprenticeship program. (practical and classroom)  
Certified Journeyman Industrial Electrician – RedSeal certified (Interprovincial)

**CERTIFICATIONS** \_\_\_\_\_

- Successful completion of Project Management and Competency Assessor training courses.
- Electrical Engineering Technologist
- Master Electrician with Alberta Safety Council
- BC FSR-A electrical certification
- Journeyman Electrician with Inter-Provincial Certification (Red Seal)
- Extensive supplemental E&I, safety and maintenance management training.
- Extensive electrical code training and experience (CEC, IEC, NEC). EEXP and Electrical Safety (Arc Flash)
- Root Cause Failure Analysis and Maintenance Systems training and experience
