Motivational Letter

I recently qualified as an Earthmoving Equipment Mechanic through liebherr Africa at fezamax/Eqstra in Gauteng on 31st July 2018 . Im currently working at liebherr Africa cape town but things does not look promising as production is decending in Cape town at Liebherr.

Throughout my apprenticeship ive been working on site and in the workshop on wheel loaders and excavators.

Ive also been working in the rebuild department in springs Johannesburg on wheel loaders excavators and bull dozers for 6 months , 1 month in Mpumalanga as field service on the coal mines. I also completed all my phases at fezamax /Eqstra in Gauteng, with production descending at the cape town branch I was assisting in the parts/sales department and administration with booking out parts for customers, assisting them telephonically with orders using the baan system. With me being technically orientated and have admin background I would definitely be an asset to your company.

I hope to to hear from you soon.

Kind regards

Dayne Michaels
