

INDUSTRIAL MECHANIC

197 Cambridge Street, Summerside, PEI, C1N 1N1
Viccenthove@yahoo.com Mobile: 902-315-3142

SUMMARY: I am a Journeyman **Industrial Mechanic** working in the Food Process Plant and previously have more than 5 years of Mining and Construction equipment maintenance. In addition to a Red-seal I did **Electro-Mechanical Technology Diploma** plus Healthy And Safety.

OBJECTIVE: I am willing to join a maintenance team in a multi-tasked environment that will challenge my skills.

EDUCATION:

- Red-seal in Industrial Mechanic (Millwright) 2019
- Electromechanical Technology - Holland College 2017-2019
- Electrical 1st Block 2018
- Health and Safety in the workplace - Cambridge International College 2013 – 2014

SKILLS:

- Fall Arrest
- Forklift
- Rigging and Hoisting
- Welding
- Hydraulics and Pneumatics
- Preventive maintenance
- Laser and Dial alignment
- Computer Maintenance Management System (CMMS)
- Programmable Logic Control (PLC) wiring and programming
- Lubrication
- Troubleshooting

OTHER:

- Changed rollers, bearings, seals, gears/sprockets, motor gear boxes, pumps and compressor
- Machining (Turning, drilling, cutting and Milling operations)
- Did Variable Frequency Drive (VFD) and Electrical Wiring methods
- Did basic None-Destructive-Testing
- Able to interpret drawings
- Performed basic electrical repairs
- Created slideshows and spreadsheets using Microsoft Office Suite

CURRENT EMPLOYMENT:

Cavendish farms New Annan, PEI - Journeyman Millwright since April 30, 2019 to Present.

I do preventive maintenance and regular checks to the Processing plant, prepare Work Orders and schedule the job as required.

My daily duties include: Plant inspection, replacing rollers, Seals, bearings, gears, chain adjustment and conveyor tracking including welding repairs, lubrication and maintaining a safe working place for everybody involved.

PREVIOUS EMPLOYMENT

SMEI Zimbabwe-Mechanical Eng. Project, Zimplats Ngezi - Millwright from Nov 2011 - March 2013

- Changed various kinds of bearings, gears, chain, belts and rollers of the conveyor system
- Performed measuring, drilling, cutting, grinding and Welding as required
- Replaced Pumps, cylinders, valves, seals, fittings, hoses, etc.
- Communicated, persuaded, and explained to others what needs to be done
- Performed basic electrical and electronics repairs
- Aligned shaft, sheave, chain and sprocket power transmission
- Interpreted blue print.
- Practiced house keeping at work place
- Lifted 40-60lb loads manually
- Moved materials using a forklift and front loader
- Participated in tool box talk (safety meetings)

Between year 2000 and Dec 2010 I worked for Costain Construction, HUSAB mine and CSCEC in the process plant and Earthmoving equipment maintenance.

CERTIFICATIONS:

- Red-seal Industrial Mechanic (Millwright) 2019
- Diploma in Electro-mechanical Technology 2019
- Diploma in Health and Safety in the Workplace (2014)
- Valid PEI Class 5 Driver's License
- WHMIS
- Fall Arrest
- Forklift
- Rigging and Hoisting

HOBBIES & INTERESTS:

- Physical exercises (Gym, walking, marathon)
- photographing, automotive repair, cooking
