Cell Phone (778) 200-6690

OBJECTIVE

A little bit about myself: I am an avid outdoorsman, unaffected by the elements. I started working self-employed at the age of 14. I started out with a shovel digging trenches and ditches, within a year I was building woodsheds, falling the odd tree. I've since branched off into many different scopes of work. I have lots of tree falling, wind-firming, dead-wooding, dangerous tree removal experience with some negative/positive block rigging. I have extensive experience in carpentry and electrical, anywhere from small reno's all the way up to industrial sectors.

QUALIFICATIONS

I am a physically fit, responsible man of 31 years. I am a quick learner with impressive hands-on knowledge and excellent communication skills as well as computer literacy. I work well under pressure and am confident that I can perform effectively.

EDUCATION

2015 Inter-Provincial Electrical Red Seal
2005 Graduated from Vanier Secondary Secondary

EMPLOYMENT

2017 Refuge Cove General Store and Marina

Vast variety of tasks on this one. Daily tasks were opening/closing the fuel dock, sometimes fueling boats, sometimes running the till. Other times I was doing some carpentry, electrical, cleaning boats, operating boats, helping with moorage, cleaning fish, storing fish, and more.

2016 Houle Electric

Worked at the Campbell River Hospital on Fiber Optic Crew

2015 Pandesign

Built from the ground up an ICF/Timberframe home for a local designer. Built footings, placed rebar, concrete pour, framing, back framing, exterior cladding, painting/staining exposed timber frame, sub-roof, door/window blockouts, etc.

2015 Bantrel

Worked at Kitimat Modernization Project, tasks included installing stanchion lighting, pulling cable, EWP work, installing instrument/cable tray, glanding/terminating.

2014 Chemco

Building/installing high-mast lights, large cable pulls, rigging cable runs, installing cable tray, etc.

2012 Canem Systems

Worked at the 443 squadron air-craft hangar in Sidney. Bent all size/types of conduit, cable tray, 3-phase distribution, cable pulls.

2010 Houle Electric

I was responsible for huge cable pulls, data pulls, support hangars, installing/bending 3" EMT & Rigid, installing step-down transformers for multiple retail units.

2007 Ledcor

Started my apprenticeship as an electrician. Worked at DeBeers mine at Snap Lake, NWT. I was responsible for installing cable tray at heights using JLG's and scissor lift, indoor and outdoor in extreme weather conditions.

2005 Canadian Rockies Woodcraft Ltd.

Worked as a laborer, then went on to sub-contract as a finishing carpenter. Work included remodelling suites at places such as Fairmont Lake Louise, Fairmont Jasper Park Lodge and Banff Springs Hotel, Westin and Rocky Mountaineer..
