Current Address: 52 Bellevue Road, Pietermartizburg, 3201, South Africa

PROFILE

I am a 37 year old qualified Industrial Refrigeration Mechanic with a National Level N3 Electrical qualification and a Gas Safe Handling certification. I have 20 years' experience in the air-conditioning, refrigeration and electrical industry along with staff management and customer management related experience. I have a valid manual driver's licence which entitles me to drive any motor vehicle less than three and a half tons, without restriction. I am physically fit and attend medicals on a yearly basis for my employer.

My family and I would like to relocate from South Africa and I am therefore considering any employment opportunities which may suit my skills and experience.

DUZI AIRCONDITIONING

www.duziair.co.za

TECHNICAL FOREMAN February 2009-CURRENT

- Fault finding, repairing and maintaining a variety of air-conditioning, refrigeration equipment and plant rooms.
- Air-conditioning systems vary from VRV/VRF type to chilled water systems.
- Variety of compressor replacement tasks.
- Tracing and repairing refrigerant leaks.
- Repairing or replacing of motors and pumps.
- Fault finding or rewiring of electrical control panels.
- Repairing of PC boards.
- Conduct planned preventative maintenance work.
- Commercial Refrigeration, cold rooms, freezer rooms and blast freezers. Repairs to ice machines.
- Air driers, heat pumps, back part moulders and panel coolers.

In addition to my technical and mechanical skills I have 9 employees that serve under me. I assist them with any problems they might encounter as well as provide training on a weekly basis. I assist the Admin staff with work schedules pertaining to the Technicians. In the absence of the manager I fill his duties as well as my own.

DSM (Decorative stone masonry) www.dsm-sa.co.za
