PROFESSIONAL SUMMARY

An **Electrical and Info-Tech professional** with experience in system design and development, maintenance of electrical components, project management, data analysis, industrial renewable energy and efficiency functions, commercial and industrial energy assessments/audits performance.

Professional strength includes:

- A good team player.
- High level of integrity.
- Organizational skill.
- Verbal and written Communication skill.
- Project and Time management.
- Innovative and decisive.
- Critical thinking and resiliency.
- Creativity and future focused.

Projects:

- Installation of Low/high pressure compressors (40bars)
- Installation of Cochran boiler (10 bar).
- Installation of 1400KVA Gas Generators.
- Installation of two C32 Diesel Generators.
- Electrification of new laboratory,
- Energy kaizen and project camel (provided studies and cost/benefit analysis),
- Upgrade of production line (installation of new machines)
- Scada system implementation on the electric panels and generators,
- Upgrade of Low/high voltage electric panel 415V/11KV.

PROFESSIONAL EXPERIENCE AND ACCOMPLISHMENTS

2018-Date

Saif Sultan
Group of
Company,
United Arab
Emirates

Maintenance Engineer

- Maintenance of the AHU
- Electrical and Mechanical maintenance
- Maintenance of the water system in the facility
- Facility management
- Ensure that Medical Machinery and Equipment runs smoothly and reliably.

2016-2018

Suntory
Beverages
and Food
Nigeria

Maintenance Engineer and Project support

- Training maintenance teams.
- Improving systems, providing support and recommendations.
- Preparing and agreeing project specifications, budgets and timescales with clients.
- Perform energy audit and optimized sources of energy to reduce energy costs and carbon emission.

2009-2016

GlaxoSmith
Kline Plc.

Maintenance Technician Promoted to Assistant Electrical Manager, Promoted to Maintenance Engineer and Project Support

- Lead maintenance team on schedule preventive maintenance across site.
- Comprehend and adhere to health and safety regulations and standards.
- Purchase electrical fittings and components and supervise the staff charged with the responsibility.

2009-2009

Evans
Medical Plc.
Nigeria

Electrical / Instrumentation Officer

- Routine check, periodic calibration and repair/replacement of faulty Instruments components.
- Prepare weekly/monthly variance analysis and maintenance reports.

Education

- Master (information tech) 2017
- PGD (information tech) 2007
- High national diploma 2005
- National diploma 1998
- SSCE/GCE 1992

PROFESSIONAL DEVELOPMENT & TRAININGS ATTENDED

Project Management, Step 7 Siemens training, Boiler certification training, Confide space training, First Aider training, SAP training, Good manufacturing practice and food handling training, Audit essential training

Skill

Microsoft Word, Excel, and Power Point, AutoCAD, PABX, Infor CMMS and DataStream7i Package (Engineering maintenance software), Beamex CMX Professional (Calibration Database Management Package), Beamex MC5 multifunction Calibrator, Seaward supernova portable electrical equipment tester, Siemens Hi-Path 3800 Software for Siemens and SAP.

2002-2009

Dunlop Plc.
Nigeria

Electrical Technician Promoted to Electrical Superintendent

- Developed a robust tracking, reviewing and reporting of all maintenance activities against agreed KPIs and proactively monitored to rapidly created work-around to resolve maintenance issues across the factory.

Utilities/services plants

- Boilers Cochran
- 40 bar compressors (high pressure),
- 8 bar compressors,
- HVAC, heating, ventilating, air conditioning and cooling system,
- water treatment plants: reverse osmosis water treatment plant,
- Gas Generators, jenbacher And Diesel Generators, CAT
- Sub Stations and 415V/11KV distribution panels uses of scada system for data monitoring and used of DCS, distributed control system for auto switching and monitoring of generators for load sharing,
- Chillers (Trane and climeveta)

Packaging plants

Tetra filling machine: Tetra Brik Aseptic TBA 19, Tetra Straw Applicator, Accumulators Easy Ride, Cardboard Parker, Tetra Brik Aseptic TBA 8 Pull Tap, Tetra Cap Flex, A3/Compact flex, Tetra Classic Aseptic TCA. Sidel hot fill, Sidel bottle blower Sidel cold fill, ozone plant, Dimac can filling machine, sugar bending and pumps .

Interest:

Sustainability, Alternative energy source, Travelling, Reading and Video
