## *Profile*

A highly skilled mechanical engineer, I have 30 years of experience in the boat building, fairground ride, energy and dairy industries, both in New Zealand and abroad. I am experienced leading teams and managing client relationships. I also have excellent time management, organisational and communication skills and am known to work well under pressure and employ excellent problem-solving skills.

I am a British Citizen with NZ Permanent Resident status, currently working in Canada.

## *Management and Organisational Skills*

- Extensive team leader and training experience, skilled at building strong teams
