POST APPLIED FOR :

Mill Wright Formen

OBJECTIVE:

To seek better prospects and allow me to utilize the various expertise and personal dedication that I have acquired over the years but will also allow me to take on new challenges and grow with company.

EDUCATIONAL QUALIFICATION	:	Intermediate (I.S.C)
TECHNICAL QUALIFICATION	:	Diploma – Mechanical Engineering
ABROAD EXPERIENCE	:	6 ½ Years
INDIA EXPERIENCE	:	6 ½ Years
TOTAL EXPERIENCE	:	13 Years

Contact No :- 7645951165,

(1). Employed as a Mill Wright Formen under **Kharafi Nation** Saipam for their project in Kuwait Oil Company (KOC) Gas Booster Station BS 171 Project 1664 Mina Gas West Kuwait.

- Experience in erection overhauling and Maintenance of various Equipment like Siemens Gas turbine rotary equipment.
- Erection of deferent types of process equipment such as boiler Heat Exchanger, boiler, gas & Gas turbine, Fuel Gas Compressor, Fin Fan , Stand by Generator, every type of pump, Gear Box alignment of rotary equipments.
- Performing shutdown and commissioning activities as per requirements.
- Erection and replacement of valve.
- **Overhauling of Gas Turbine:** Rotor removing for balancing, take clearance in labyrinth, nozzle and bearing. Fixing the calibrated governor in prepare setting.
- Overhauling of Centrifugal Pump.
- Overhauling of High Pressure plunger Pump.
- All Type Gear box Alignment

ALIGNMENT:

Alignment of Prime mover with Rotating Equipment by following Techniques.

- Rim & Face Method.

- Reverse Dial Method.
- Leaser Method.
- Graphical Method.

(2) 26/11/2012 to 15/02/2014

Employed as a Mill Wright Foreman under Kharafi Nation (Petrofac) Project No.- EF 1760, Kuwait KOC.

- Installation of Fuel Gas and Gas Oil Pipe Lines and Pumping Stations from MAA to Azzour & Shuaibia Power Station in Kuwait.

(3) 30/04/2010 to 25/11/2012

Employed as a – Mill Wright Foreman under Kharafi National (Saipam) Project No. 1398 Gas Booster Station BS-160 Kuwait Oil Company KOC Kuwait

- Erection of different types of process equipment such as Gas turbine compressor, Filter House, Gas Air Cooler, Fin Fan, Gas Generator, Fire Water Pump, Raw Water Pump Gear Box every type pump Dry Air Compressor vessels, Columns Exchanger, Boiler Tank, Overhead Crane all types rotating & static equipment alignment.

MAINTENANCE OF STATIC EQUIPMENTS:

- Reactors, Vessels, Columns, Heat Exchangers, boilers, Tanks & Ejectors.
- Pipeline Clamping / Hydro Testing, Filter House overhead crane.

MAINTENANCE & RECONDITIONING OF VALVES:

Reconditioning & testing of following types of valves.

- Globe Valve, Plug, Butterfly, Ball, Gate, Diaphragm & Non Return Valves, Safety & Relief valves.
- **Others:** Fin fan bearing and belt changing, blade adjustment.
- Repair and overhaul of rotating equipments such as pumps, Gas Turbine, compressor, Gear box and related machineries.
- Different types of pumps with capacity ranging less than 1 GPM to 250 various makes and types such as:
 - a) Submersible – multistage pumps
 - b) Rotary positive displacement pump
 - c) Centrifugal pump
 - d) Knowledge of reverse (Graphical) of Alignment / Rim & Face

- e) Knowledge of lapping of seal and valve plates
- f) Maintenance and repair of various makes and various types of mechanical seals

INDIAN EXPERIENCE: 05/02/2007 to 20/03/2010

Employed as Punjlloyd – Project No. CS-07 and CS-08 RGTIL Relaince East West Gas Pipe Line Project Maharashtra India.

- Erection of different types of process equipment such as Gas turbine compressor, Filter, Gear Box House, Gac Gas Air Cooler, Fin Fan, Gas Generator, Fire Water Pump, Raw Water Pump every type pump Dry Air Compressor vessels, Columns Exchanger, Boiler Tank, Overhead Crane all types rotating & static equipment alignment.

INDIAN EXPERIENCE: 15/02/2003 to 08/06/2006

Lekshmi Engineering Worked (Enmas) as **Mill Wright Technician TNPL Paper Mill, Tamil Nadu India.**

Specialist in Erection Equipment & Machinery for Industrial Plants and Power Plants Piping etc.

Experience in Erection over hauling and maintenance of various equipment like a stream turbine, Gear Box Feed pump, Generator, ID Fan, PA Fin, Sa Fan, ESP Recovering Boiler 1300 TDP, Chimney, Generator, Vessel, Tank Exchanger, Pump House.

Maintenance of Reconditioning of valves

- Globe valves PSV, Butterfly, Ball, Gate valves, Diaphragm, Non return valves, safety & Relief valves.
- Fin Fan alignment bearing and belt changing blade adjustment.
- All type motor & pump alignment and maintenance.
- All type gear box alignment.
