CNC PROGRAMMER. Fanuc

*Technologist in industrial design

*12 years of CNC experience (7 years CNC lathe and 5 years CNC strawberry)

*17 years as an industrial mechanic

Competences

- Teamwork, self-employed in obstacle resolution, dedicated, constant, responsible and creative
- Good knowledge in 3D design software and CNC programming : Master Cam, Bobcad Cam, Solid Edge, Solid Works , (and knowledge in: Inventor, Catia and rhinoceros)
- LANGUAGES : Spanish (native), English (intermediate), French (beginner)

Professional Experience

2015 –Up to date. REPRESENTATIONS UY INDUSTRIAL SOLUTIONS

Charge: CNC Strawberry Scheduler

Function: Product development from the customer's idea or on samples for mass production by means of devices or by means of injection or vulcanized matrices.

2007-2015 TECHNICAL ALLOYS

Position: CNC Lathe Programmer

Function: Modeling, Planimetry, programming and subsequent manufacture of industrial products in series by means of CNC turning of 2 and 3 axes in control of type FANUC brand DAEWOO and HYUNDAI WIA

2006-2007 M AND O MOLDES AND TROQUELES

Charge: Milling Torner

Function: Machining in general by conventional lathe operation and conventional milling and interpretation of planes for the manufacture of injection molds and dies by means of operations such as: manufacture of columns, bushings, males, females, boxes boring etc.

2002-2006 IMPORTER MOTORDUZ LTDA

Charge: Milling Torner

Function: Series manufacture of auto parts using machines such as :automatic lathe stirring, conventional lathe, hydraulic press, conventional cutter, electric welding and grinding machine.

Academic and area work training

2012-2015 Technologist at: Industrial Product Design

Institution: SENA

Description: Product development from scratch, sketch, planimetry, 3D modeling, prototype, final product.

2015-2015 TITLE: BobCAD Cam v27 Software Operator

Institution: BobCAD CAM

Description: Handling office tools in CAD-type software for G-code programming

2013-2013 TITLE: Fundamentals Of Solidworks

Institution: SENA

Description: 3D design and modeling

2012-2012 TITLE: SOLID EDGE

Institution: SENA

Description: 3D modeling and animation
