

Aaron Ngan Tafam
6012 97A Ave. NW, Edmonton, AB T6B1E3
(780) 446 – 8316 tafngan@gmail.com

JOB OBJECTIVE: To obtain a position that will enable me to use my creative troubleshooting skills and strong educational background.

WORK EXPERIENCE

Power Engineer / Quality Control

July 2019 – Present

Nudura Polyform Plant, Coaldale, Alberta

- In charge of the HP steam generating unit of the plant.
- Perform the testing on ICF products and compare the results to the specification requirements
- Adjust the steam pressure and temperature, and the molding cooling time to meet the product quality

Shift Engineer / Plant Operator (Fly in / Fly out)

Sept. 2018 – June 2019

Diavik Diamond Mine-Rio Tinto, Yellowknife, NT

- In charge of the HP steam boiler, the LP Steam boiler, and the Heating boilers of the Backfill plant
- Helped optimize the chemical usage for boiler feedwater treatment
- Developed an effective SOP for the waste oil boiler cleanup
- Performed preventative maintenance on various mechanical systems to ensure reliability and function
- Completed regular and assigned plant operation duties in designated areas

Assistant Shift Engineer

May 2018 – Aug. 2018

Air Products, Fort Saskatchewan, Alberta

- Participated in the steam generation units operations; performed daily round check
- Carried out the Reverse Osmosis Water Treatment
- Familiarized with HP Superheated Steam application, gas processing, thermal recovery process

Vessel Entry Technician

April 2018 – May 2018

Catalyst Changers, Suncor Edmonton Refinery, Alberta

- Entered confined spaces (reactors, regenerators, etc) under supplied air
- Performed catalyst handling/changeover

Assembler / Forklift Operator

Sept. 2012 – Oct. 2017

Loblaws, Edmonton, Alberta

- Operated power jack, forklift (stand up), and pallet stretch wrapping machine
- Used radio-communication material

Telecommunications Technician

Jan. 2010 – June 2012

Sonara (oil refinery), Limbe, Cameroon

- Assisted in Telecom installations
- Routine fault diagnosis and maintenance activities as directed

EDUCATION

Power Engineering Technology Diploma

Sept. 2016 – April 2018

NAIT, Edmonton, Alberta

- Steam generation, Cogeneration / Combined cycles
- 2nd Class Power Engineering theory; 12 months steam time towards 2nd Class Certification
 - Specialized Boiler Designs, Power Generation, Steam/Gas turbines, Compressors, Pumps
 - Mechanical drafting, blueprint reading
 - Oil and gas processing
 - SAGD well production
 - Pulp and Paper Process (Kraft process)
 - HVAC systems (theory and hands-on)

Bachelor of Sciences Degree – Electrical/Telecommunications

Sept. 2006 – Sept. 2009

National Advanced School of Engineering, Cameroon

- Eligible for registration as an APEGA Engineer-In-Training

CERTIFICATIONS

3 rd Class Power Engineer (A-90708); progressing towards the 2 nd Class Certification		
Class 5 (Non-GDL) licence (20-2-22)		
H2S Alive (03-01-20)	Fall Protection (03-05-20)	First Aids (06-06-20)
WHMIS 2015 (23-12-19)	Elevated Work Platform (04-05-20)	CSTS-09 (28-12-19)
Confined Space (27-05-20)	OSSA Basic Safety Orientation	TDG (02-06-20)

INTERESTS / OTHERS

- Strong computer skills, solid scientific background, and problems solving skills
- Bilingual: English and French. Willing to relocate throughout Canada
- High School Mathematics and physics tutoring for free
