

Cover letter

I am writing to apply for the diesel mechanic position advertised. I am confident with experience in repairs and maintenance. My skills would be valuable to your state of the art shop. A dependable and technically skilled diesel mechanic, I offer well rounded diagnostic and repair expertise and a reputation for quality, honesty and integrity. I have been searching for a diesel mechanic position with a reputable, full service shop. I am very excited about the prospect of joining your team.

As a heavy equipment technician for current employer (Idwala Industrial Holdings Lime Distributors) I handled maintenance and repairs on automobiles, Trucks, Buses, LDV's, Tractors and moving machines. Man, Mercedes, Tata, Hino, UD, Volvo, Scania, Daf, Caterpillar, Dozer, Dump Trucks, ADT, Komatsu, Liebherr, Bell and Doosan, forklifts and locomotives spanning virtually makes and models. I performed diagnostics, maintenance and repairs on engines, brakes, steering / suspension system, power-trains, fuel injectors, transmissions, component rebuild and electrical system-delivering prompt, thorough and high quality work on each and every job.

At Lime Distributors, I am known for my mechanical knowledge, diagnostic skills and high productivity level. My commitment to building loyal customer relationship and deliver superior service was repeatedly commended

I am confident my mechanical skills would benefit your customers, team members and bottom line if I am selected for this position. You can call me on (+27730986621 / +27658832656) Skype: live:ahmedbabah9 Email me: ahmedbabah9@gmail.com to set up a meeting. I hope to hear from you soon.

Sincerely

Ahmed Babah
