WORK HISTORY

Project Coordinator

2018 – CURRENT

AECOM

In charge of all MOC & Capital Projects on a large to small scale basis from piping add-ons to boiler rebuilds. Collaborated seamlessly with a crew of 125 personnel. Taking preview of the whole work front including but not limited to, planning, scheduling, costumer relations, ensure QA/QC program is being adhered to.

- Budgeted time requirements to complete each phase of construction to meet completion deadlines, averaging a production percentage of 100%.
- Administered quality control and performed required corrective actions.
- Engage with Engineers, Client Staff and Sub Contractors.

Superintendent

2016 – 2017

Husky Sunrise: AECOM

Worked with 80 DFL at peak; completed the construction of 2 new SAGD pads, emulsion pipeline, main steam pipeline and as well as a fuel gas line. Spearheaded daily site planning and scheduling, change management, reporting to the client, estimating, aligning 3rd party contractors to fit with schedule and work front.

- Supervised and monitored work of subcontractors to ensure accuracy and completion of work.
- Collaborated with team on safety audits, construction safety walks, and pre-commissioning walk downs.

Superintendent

2014 – 2016

CNRL Horizon, Fabrication Superintendent Fort McMurray Fab Yard: URS/Flint

Promoted to Construction Superintendent from the role of fabrication yard in Fort McMurray, Collaborated with project controls on various projects with various clients including ConocoPhillips, Suncor, Stat Oil to build P6 (Primavera) schedules to help with work flow as each project progressed.

- Managed budget, schedule, work flow, change orders, production, customer relations, and equipment.
- Oversaw pipe fabrication and built small mods and platforms for many other projects.

Superintendent / General Foreman

2012 – 2013

Suncor MacKay River Flint Energy

Managed a 20 man team for the isolation and inspection of vessels on site, delivered project on time, budget, and within schedule.

- Initiated and implemented change management, scheduling with project controls, 3rd party alignment, coordinating tie-ins with plant shut downs.
- Provided daily reports to the management team and client

Foreman / General Foreman

2005 – 2012

Husky Energy Quinn Construction

Responsible for ensuring the work front was always in front of the workers, weld mapping for the QA/QC department, morning tool box talks and safe work practice review. Walked down hydro test packs with the workers double check all blinds and vents were installed as to test pack.

- Effectively managed shutdowns and system outages.
