CDCR Training Personnel & FUTURE ICI Core CDCR Students:

We have been seeing a consistent problem with CDCR students not being able to complete the POST online Search Warrant Fundamentals course, which is a prerequisite for the ICI Core course. We have identified the reason why this happens and hope this note will help to eliminate further issues for CDCR personnel.

Because CDCR is not a POST Agency, many of the CDCR students who know they are going to ICI Core, but have not yet received their welcome/registration letter are getting misinformation (albeit with good intent!) from former CDCR Core students who tell them they need to obtain a POST ID number so they can complete the online Search Warrant Fundamentals course. When a CDCR student goes to the POST website and requests a POST ID number, one is generated for them under their name, email and agency. Then, when they receive the welcome/reservation confirmation letter from us and click on the link for the online course, a second POST ID is automatically generated for the individual. This causes a conflict because there are now two POST ID numbers generated for the same name/email address and the student is now unable to access the course.

Also noteworthy, if a CDCR student **already has a POST training record**, as ***some*** of you do who are in specialized units, when you click on the link for the online Search Warrant Fundamentals course, POST will recognize you, and you will be able to access it with no problem since you already have a POST ID/POST Training Profile.

CDCR STUDENTS

PLEASE WAIT UNTIL YOU RECEIVE THE WELCOME/RESERVATION CONFIRMATION LETTER FROM US, AND FOLLOW THE LINK AS DIRECTED IN YOUR LETTER, THIS WAY, YOU WILL BE ABLE TO ACCESS THE ONLINE SEARCH WARRANT FUNDAMENTALS COURSE.

THANK YOU!
