Bathroom & Spa collections

Wellbeing. It's at the heart of everything DAVANI stands for. Not only design that blends style and functionality, but design with the active intention of creating a richer experience of your every day. The DAVANI Bath & Spa collections center on the merging of natural stone and water in the sanctuary space of the home – the bathroom.

Designed by Italian architect Silvia Spagnoletta, with creative direction by DAVANI co-founder and Creative Director Anthony Davani, these organic modern pieces embody beauty and elegance in sleek suites that invite calm and create a sense of peacefulness.

In the perfect union of water and natural materials, warm elements artfully sculpted in stone and wood become the space for water. It's the ultimate in thoughtful luxury, providing places to relax and interact with water's life-giving force.

Inspired by the natural lines that define the planet Earth, the MERIDIAN and PARALLEL collections are crafted by talented artisans. They bring to life the designers' vision to create balance and harmony. In a world that never stops spinning, these evocative shapes provide a sense of tranquility, a precious moment of stillness.

MERIDIAN collection

The MERIDIAN bath & spa collection is inspired by the meridian lines of the human body and of planet Earth. In some cultures, these meridians are pathways along which vital energy is said to flow. Lines carved in the stone both divide and connect with the surface, creating a texture that expresses energy and calm.

Softly rounded rectangular shapes along with the curved shapes of the lower part of the elements give a sensation of peace. These forms remind us of how stone is often found in nature, carved and softened by water and etched by ice that flowed centuries ago.

Adding even more warmth and tactile elegance, wood elements complement the stone in the form of supports, accessories and the interior lining of the the cabinets.

Choices and thoughtful details abound. Each piece may be realized in your choice of seven natural stones, simply honed or with the MERIDIAN texture. The vessel and pedestal sinks have a stone cover that cleverly conceals the drain. The vanities are composed of modular elements. The sink modules of the vanities have a top where water flows gently towards the drain. These basinless sinks are both refreshing and mesmerizing, like a natural spring flowing over a flat river rock.

MERIDIAN VS50 vessel sink

MERIDIAN VS50 is a vessel sink available a choice of seven stones, with a smooth honed finish or with the signature line-etched detail on 2/3 or 1/3 of the main face, extending around the corner onto the side. A round stone cover conceals the drain. The sink may be combined as shown with the modular wooden cabinet with drawers or shelves.
