DAVANI

Bathroom & Spa collections

Wellbeing. It's at the heart of everything DAVANI stands for. Not only design that blends style and functionality, but design with the active intention of creating a richer experience of your every day. The DAVANI Bath & Spa collections center on the merging of natural stone and water in the sanctuary space of the home – the bathroom.

Designed by Italian architect Silvia Spagnoletta, with creative direction by DAVANI co-founder and Creative Director Anthony Davani, these organic modern pieces embody beauty and elegance in sleek suites that invite calm and create a sense of peacefulness.

In the perfect union of water and natural materials, warm elements artfully sculpted in stone and wood become the space for water. It's the ultimate in thoughtful luxury, providing places to relax and interact with water's life-giving force.

Inspired by the natural lines that define the planet Earth, the MERIDIAN and PARALLEL collections are crafted by talented artisans. They bring to life the designers' vision to create balance and harmony. In a world that never stops spinning, these evocative shapes provide a sense of tranquility, a precious moment of stillness.

PARALLEL collection

DAVANI

MERIDIAN collection

The MERIDIAN bath & spa collection is inspired by the meridian lines of the human body and of planet Earth. In some cultures, these meridians are pathways along which vital energy is said to flow. Lines carved in the stone both divide and connect with the surface, creating a texture that expresses energy and calm.

Softly rounded rectangular shapes along with the curved shapes of the lower part of the elements give a sensation of peace. These forms remind us of how stone is often found in nature, carved and softened by water and etched by ice that flowed centuries ago.

Adding even more warmth and tactile elegance, wood elements complement the stone in the form of supports, accessories and the interior lining of the the cabinets.

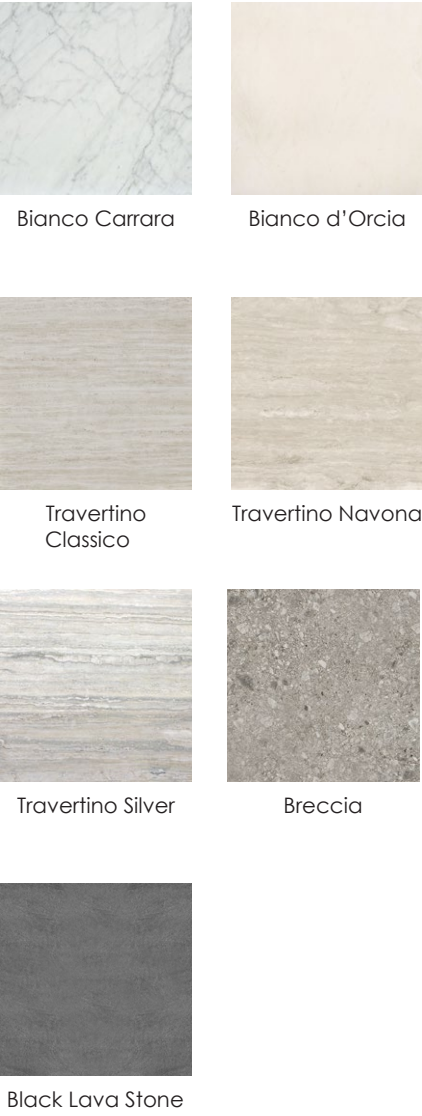

Choices and thoughtful details abound. Each piece may be realized in your choice of seven natural stones, simply honed or with the MERIDIAN texture. The vessel and pedestal sinks have a stone cover that cleverly conceals the drain. The vanities are composed of modular elements. The sink modules of the vanities have a flat top, where water flows gently towards the drain. These plane-style sinks are both refreshing and mesmerizing, like a natural spring flowing over a flat river rock.

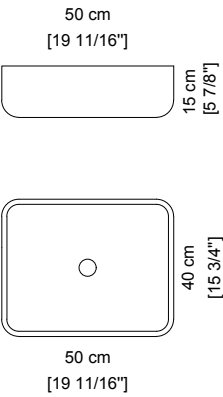

MERIDIAN VS50 vessel sink

MERIDIAN VS50 is a vessel sink available a choice of seven stones, with a smooth honed finish or with the signature line-etched detail on 2/3 or 1/3 of the main face, extending around the corner onto the side. A round stone cover conceals the drain. The sink may be combined as shown with the modular wooden cabinet with drawers or shelves.

MERIDIAN V50 vessel sink in Travertino Navona with 1/3 texture.

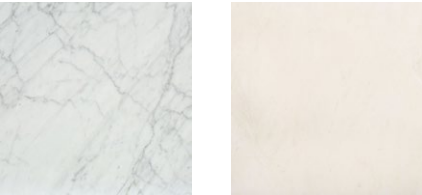

MERIDIAN V50 vessel sinks in Bianco d'Orcia. H20 shelf in Silver Oak. Tiles in Breccia.

MERIDIAN VS150 vessel sink

MERIDIAN VS150 is a double vessel sink offered in a choice of stones, with a smooth honed finish or the signature line-etched detail on the main face, extending around the corners. Round stone covers conceal the drains. The sink may be made with an open interior, or with a central stone partition dividing the two sinks. It combines nicely (as shown) with the modular wood cabinet with drawers or shelves.

MERIDIAN WMS

wall-mounted sink

MERIDIAN WMS is a wall-mounted, basinless double sink offered in a choice of stones, with a smooth honed finish or the signature line-etched detail on parts of the main face, extending onto the top. The remarkable basinless design offers the ultimate in minimalist luxury - the water simply seems to disappear. An optional fully integrated center drawer is available in laminates with wood effect. Custom lengths may be specified for this sink.

MERIDIAN WVS

wall-mounted vanity with integrated sink

MERIDIAN WVS is a modular, wall-mounted, basinless vanity offered in a choice of stones. Each module may be specified with a smooth honed finish or the signature line-etched detail, with the same choice for the top. The remarkable basinless design offers the ultimate in minimalist luxury. Left, right and central modules may be installed side by side to obtain desired length. Larger modules are offered with or without the basinless sink. A floating shelf is a great optional complement to this vanity. The shelf and the inside of the cabinets are available in laminates with wood effect.

DAVANI

PARALLEL collection

In the same way as the horizon line unites earth with sky, the DAVANI PARALLEL Bath & Spa collection is inspired by the notion of a horizontal line that connects volumes across a space. The collection comprises sinks, vanities, tubs, tile, lighting and storage pieces hand crafted using materials from nature. Stone and wood are accented by warm metals.

This suite of luxury bath elements gently creates elegant geometries, in nuanced designs that play with shape and detail. Overlapping stone volumes are rendered light and graceful when bisected by a sleek line in the form of a recessed strip of wood or metal.

A serene look is also achieved by introducing variously curved and straight shapes, all unified by the horizontal line.

PARALLEL balances pure volumes of stone with a sense of lightness that can only come from a design that's focused on the linear.

PARALLEL VS45 vessel sink - round

PARALLEL VS45 ROUND is a round vessel sink offered in a choice of seven natural stones, with a recessed base in a choice of six woods or four metals. A round stone cover conceals the drain. Suitable to combine with a PARALLEL shelf or cabinet in wood or wood-lined stone.

PARALLEL WVS wall-mounted vanity with integrated sink - single

PARALLEL WVS SINGLE is a wall-mounted vanity with integrated sink in a choice of seven natural stones with accents in six choices of wood or four metal finishes. The stone clads the storage and forms the overlapping volume of the basin. A sleek strip of recessed wood or metal bisects the vanity apron horizontally and serves as a handle for the storage door openings on either side of the sink. There is another concealed drawer below the sink itself, as it is a basinless sink design. The drain is a discreet straight line cut into the stone. The inside of the cabinets is available in laminates with wood effect.
