CABINETS

Cabinets complete the collections, serving as a fitting base for the various vessel sinks. These wall-mounted, modular cabinets are offered clad in a matte honed finish in any of seven luxury stones, or in any of our six luxury woods. Each left or right module has one drawer, and they may be installed side-by-side where double sinks are desired. A center module is also offered to achieve a longer vanity space. Drawers, with a recessed handle concealed underneath the front apron, are lined in your choice of wood and may be further accessorized with elements in stone and metal. The inside of the cabinets clad in stone is available laminates with wood effect.
